

What is “The Secret” as it applies to our world situation?

Update October 7, 2010

Gregg Braden tells us some of The Secret in his videos and books, but he does not mention the people who are behind much of the havoc on the planet. The people who created “[The Secret](#)” [Video](#) tell us how “The Secret” will work for us in our personal lives, but very little of importance regarding the world situation. What good is it

if you become financially affluent, to then have all your wealth stripped from you, and be carried off to an American [FEMA concentration camp](#)?

The so-called “elite” are those who have been gradually taking control of the people, and the governments, of the entire earth. They have brought war, poverty, starvation, murder and disease to multitudes for many centuries.

Please watch Gregg Braden's [SCIENCE OF MIRACLES](#).

Using statistical methods, it's been ascertained that crime decreases, and war-like activities are at least drastically reduced, when the square root of 1 percent of the population of an area becomes peace inwardly. As Ghandi said, "We are the change we seek."

Experiments have been going on all over the world, with coordinated efforts on the internet. The square root of 1 percent of the population of the people on the planet is approximately the number of so-called "elite" on earth. The result of the square root of 1 percent calculation is 8 thousand people: the number required to affect positive change on the earth. [THE SCENCE OF MIRACLES](#) explains, in scientific terms, how

this works.

The number of people required (through spiritual means alone) to affect change in a city, a counry or the entire planet, for evil, to bring war, violent crime, and other problems, is the square root of 1 percent. The same proportion, to bring [PEACE](#) and PROSPERITY, is the square root of 1 percent of the number of people in a designated area.

What do the insane, so-called "elite" do? They take part in [SATANIC RITUALS](#), like the event in Bohemian Grove in July of 2010, and they are focused upon spiritual evil. Do you think it ends at their rituals? No, they are focused upon their intent of [STARVATION](#), [WAR](#), [IMPRISONMENT](#) of mind and body, [MASS DEATH](#), [TORTURE](#), for humanity.

Of course, they do not just think, and feel, they work hard, day and night, to implement their control over governments, armies, navies, air forces, and a greater number of

people in the world. It is their obsession. They are disciplined, in their thinking, and feeling, toward their goal. Nothing distracts them. The "elite" are concerned about the rapidly increasing number of people on the planet who are becoming politically aware. However, there is a problem with some ordinary good people, (the non "elite") who know of the threat. They do not have a certain knowledge, a spiritual understanding, an awareness that the so-called "elite" do have. Yes, many of the good people on the earth are angry, and they work hard to disseminate information with documentary videos, with written materials, and they do what they can to convince their fellow humans that they must get involved, to speak out, to make political changes. All this is important, but what is missing?

When a person wants to quit smoking, how do they accomplish it? It's best done by not focusing on the cigarettes. How does a person become thin? They stop focusing on the fat. If they say, "I must get rid of the fat,"

that is counter productive. What do good people focus on? They focus on the "elite." They focus on the threats to LIBERTY, threats to PROSPERITY, threats, to PEACE.

Their focus is with intense emotion. That is, exactly, what the "elite" want them to do.

Never deny the threats. Learn of them as much as possible, but FOCUS ON THE OPPOSITE. Focus on PEACE, POWER = liberty and awareness, and PROSPERITY for the planet. Give your enthusiasm, your spiritual energy, towards the solution, not towards the problem. There are many positive facts regarding this endeavor of bringing [PEACEPOWER](#) and [PROSPERITY](#) to the people of the planet.

Many of the people are waking up to the threats posed by the so-called "elite", and the increase is rapid. The "elite" are in retreat. We, the people, outnumber the so-called "elite" 6 billion to 6 thousand. The [police and military](#) in the U.S. Are waking up rapidly in large numbers. They are passing out truthful documentary DVD's to one another. Look at [OATHKEEPERS](#).

Remember these 3 axioms:

1. What you resist, persists.
2. Gratitude for what good you have, brings more good into your life
3. There is a power in you, and in all our ancestors that created evil in this world. That same power will eliminate it. You must take responsibility, and accept that it was a power that created the evil - whether conscious of that creation or not - to be able to eliminate it.

You must understand, deeply, that you created all of this, and the "elite" evil manifestation is nothing more than a reflection of you

It is important that resistance, in the above number 1, be explained, because this is very subtle. If by resistance, one means to be active in informing many of the problem of a lack of peace in the world, and becoming politically active against the will of the "elite," that resistance is not producing a persistence of the problem. It is attitude, and emotion, in regard to resistance that is important. If you believe, without any doubt, that the

“elite”

agenda will be defeated, and your children will not suffer the fate of being murdered or enslaved, then your activity is combined with confidence. That is not activity that comes from desperation, or fear.

Over a year ago, the "elite" launched an attempt to [vaccinate](#) and poison nearly the entire world's population.

Plans for military supervised forced vaccinations were almost implemented, but the masses worldwide revolted. This was what is called "critical mass" awareness. People picked up the danger because it was "in the air." In many cases, the written, and spoken, word was unnecessary.

Again, note that there are 6 billion people on the earth, compared to 6 thousand so-called "elite." That is a ratio of [one million to one](#). In terms of spiritual power, it means nothing if the people do not regain THE SECRET of THE LAW OF ATTRACTION that the “elite” have tried to suppress from the masses.

Direct your emotion, your enthusiasm toward those positive facts, and don't focus on things that enhance fear.

Focus on the outcome for yourself, and the people of the planet, which is PEACE POWER and PROSPERITY.

Remember these two forces work within you. One is fear, and the other is love. The more you nurture love, the less fear will be permitted to manifest, and soon enough you will not feel fear at all. The freedom movement, armed with use of THE LAW OF

ATTRACTION will become more affluent, monetarily. This will enable them to gain more political-educational accomplishments. This is a war of the "elite" to gain complete control of the minds and hearts of the people of this planet. Control begins in the mind and heart, and then extends to physical imprisonment.

To start a world war the “elite” propagandize the people so they lust for mass death. This psychic energy from the masses enables the “elite.” There is no majority requirement for this blood lust to enable the “elite.”

The primary focus of we who love liberty, is to gain an understanding of the **SPIRITUAL** methodology of the "elite" for evil, and to use that same method for good. I am writing, here, of the **LAW OF ATTRACTION**.

There should be more people in the freedom movement understanding it. To grow strong with your ability to use the law of attraction, which will affect your prosperity, your health, and your personal freedom, you must learn self-discipline with your thoughts and emotions. There is a great deal of material about this, but very few teaching this actually apply the information directly to the freedom and world peace movements. As time passes, I'll be disseminating more information about this, much of it for free, so please be watching your e-mail. It's important to note that there is no fixed future for mankind! YOU are responsible for all you see and experience. YOU are the change you seek.
